

GIRL ARRESTED

Buffalo Police Must Now Show Their Hand As Fair Prisoner Has Just Been Released on Habeas Corpus

Miss Hutchinsons' Mother Says: "My Daughter Did Not Murder Mr. Burdick"—Important Developments in the Mysterious Murder.

Buffalo, N. Y., March 7.—(Bulletin)—The police now have in custody a woman whom they are interrogating regarding the mysterious Burdick case. Her name has never been mentioned in connection with the murder. The woman's name is Miss Marie Hutchinson of 19 West Tupper street. She was well acquainted with Burdick. It develops that the Hutchinson woman was a stenographer in the employ of Mr. Burdick. The police asked for her handkerchief when she arrived at the station. It proved to be the exact counterpart of the one found in Burdick's "den" after the murder. Marion W. Hutchinson who has been detained by the police since this morning, in connection with the murder of Edward Burdick, was released this afternoon. Superintendent of Police Bull said the girl who, was employed in Burdick's factory, had intimated that she could give valuable information relating to the murder and he said she was taken to police headquarters for that purpose, but later events this afternoon argue that she was arrested for the alleged crime.

It has just developed that Miss Hutchinson has been released on a writ of habeas corpus granted to her mother who said: "My daughter did not murder Mr. Burdick." The police must now disclose their evidence if they have any.

Buffalo, March 7.—That the murderer of Edwin L. Burdick may never be brought to justice is now the belief of those who have followed the case. The woman who has been under strong suspicion, and who has become known as the "police suspect," is believed by some members of the police department to be guiltless of the murder, although she may, they say, have cognizance of the crime. The probability of an immediate arrest being made in the case grows slighter every hour. Other officers are as sanguine as ever that an arrest will be made sometime.

Among those who remain unshaken in this belief is Chief of Police Bull. He says that he suspected the same person as he did earlier in the week. He says that a woman is suspected and may be arrested soon.

Mrs. Payne, who denied knowledge of the murder was in a happy mood today.

"Do you know," she said with a smile, "that the detectives have been withdrawn and that neither myself nor my husband are under the surveillance of the police?"

"I feel so happy and free. Actual custody could hardly be worse than what I have endured."

Chief of Detectives Cusack said that his men were watching houses in the Elmwood district.

NINE HURT

Cage in an Ohio Mine Fell 155 Feet—Two Will Die—How Accident Occurred.

Dennison, Ohio, March 7.—Nine men were injured, two perhaps fatally, in the Lajoie Mine No. 8, near Sherrods-ville, by the cage falling to the bottom with the men aboard. The shaft is 155 feet deep.

The injured are William Williams, legs broken and knees crushed; Arthur Gelsenger, feet and legs crushed; John Jenkins, feet crushed; Emory May, all of Leesville; Frank Wronetz, Frank Knight and two Frenchmen, of Sherrods-ville. One Frenchman is injured internally and will die.

The engineer, Ed Hawkins, has been running a hoisting engine for 20 years, and this is his first accident.

STUDENTS

Secured Court Injunction when Threatened with Expulsion from West Virginia University.

Morgantown, W. Va., March 7.—Thirty law students of the university comprising the whole senior class, kept themselves from being expelled Friday by obtaining an injunction from Judge John W. Mason, which restrained the faculty and President D. B. Purlinton from carrying out an expulsion order. The trouble arose over some riotous conduct in the class room several days ago, when a lot of furniture was broken and James C. Frazer, who was lecturing for Judge Okey Johnson, was compelled to give up the work. The faculty gave the class the option of paying for the furniture and making written apologies to all concerned, but the members refused to apologize, hence the expulsion order.

BETTIE WHITE

The Dayton Colored Woman Who Burned Her Husband Was Sent to Penitentiary Today.

Dayton, O., March 7.—Bettie White, colored, who burned her husband to death last year, and was this week convicted of manslaughter, was sentenced this morning by Judge Brown to five years in the penitentiary. Levi White, the husband of the convicted woman, lay asleep one afternoon after his labor, when Mrs. White poured kerosene over him and set fire to it. He died from the burns received.

STRIKE

AGAINST THE AMERICAN BRIDGE COMPANY.

It Involves Thousands of Men in All Sections—Much Work is Seriously Affected.

Philadelphia, March 7.—A general strike against the American Bridge company, has been called by the executive board of the International Association of Bridge and Structural Iron Workers. This general order includes all construction work in the hands of the company throughout the United States and Canada and involves thousands of men in all sections. When the order was received by Housecarp and Bridgemen's Union, No. 12, of this city, strikes were called on all operations where American Bridge company iron was used.

Frank Buchanan, general president of the International Union, and another member of the executive board, are now in this city. As a result of a conference between representatives of several contractors and business agents of the local union the men have been ordered back to work on operations in this city, not being carried on by the American Bridge company. The American Bridge company is said to have large construction contracts at many points. It is said here that the work in Albany, Pittsburg, Buffalo and St. Louis is seriously affected. The union has taken steps to prevent, if possible, the shutting of construction contracts.

LOVE

Led Young Girl to Her Death

Chicago Millionaire's Son Visited Nellie

MYSTERY HAS BEEN CLEARED UP AT CHICAGO.

PATHTIC STORY TOLD BY GIRL

To the Mother of the Young Man Who Was the Idol of Her Heart—A Sad Case.

Chicago, March 7.—The mysterious poisoning case discovered by the New York police in the death of Nellie Fletcher has a Chicago connection. It is believed that the young woman committed suicide for love of Alfred Manierre, son of George Manierre, a millionaire real estate dealer.

Miss Fletcher, it is said, came to Chicago with Manierre from New Haven, where the young man was a student at Yale. While here she lived at the Empress Hotel, where Alfred Manierre often visited her.

The young woman was declared to be devoted to the son of the wealthy real estate dealer and it was only when she realized that she could never become his wife that she determined to leave the city. She disappeared from Chicago a week ago. When Alfred Manierre went to the hotel to see her she could not be found. Manierre concluded that she had gone to New York a few days before. Manierre did not accompany the young woman to New York. He is in Chicago.

A pathetic side of the story is told by Mrs. Manierre, mother of the young man with whom the woman was infatuated. Mrs. Manierre knew nothing of the friendship of her son for Miss Fletcher until the day before the young woman left Chicago. On that day Miss Fletcher called at the Manierre home, 61 Bellevue place. She asked to see Mrs. Manierre and unfolded her sad story.

She told how she had fallen in love with her son while he was a student at Yale, and that she had come to Chicago, where he had continued to care for her since her arrival here six months ago. After revealing the mysteries she had to unfold Miss Fletcher then declared as the tears streamed down her face, that she had begun to realize she was a burden on young Manierre and she wanted to return to New York, where her husband resided. "I was married in New Haven," Miss Fletcher is reported to have said to Mrs. Manierre, "when I was 17 years of age, and my husband is still living in the East."

After the interview Mrs. Manierre arranged to have Miss Fletcher returned to New York, and there is a story that Mrs. Manierre secured the transportation instead of her son.

Mrs. Manierre said that she believed the man who met Miss Fletcher in New York is the young woman's husband.

Miss Fletcher was described to the police as the daughter of a wealthy Virginia family.

BOTTLES OF MEDICINE

Found in the Room Were Purchased of a Chicago Druggist.

New York, March 7.—After making a superficial examination of the body of a woman found dead in the boarding house of Mrs. Maria Farrell, 162 West Sixty-ninth street, Coroner at the affair looked to the police as the daughter of a wealthy Virginia family. While he would not give it as his opinion that a murder had been committed, he said the circumstances were such as to create a suspicion of the body, and next Wednesday morning he would have a man accompanying him to the morgue to see if the woman was the same.

From letters the hands of the coroner it is probable that the name of Nellie Fletcher, On

INSANITY

The Whole Basis of Defense in the Murdered Knapp Case—Hearing Next Week.

Hamilton, O., March 7.—Interest in the now famous Alfred Knapp wife murderer and confessed strangler of five persons is now centering on the line of defense which will be made by his attorneys, Darby and Thompson of Cincinnati. It is said that the murder of Hanna Goldard Knapp will be admitted, but that the defense will claim that Knapp was insane when he committed the crime. Special stress will be laid on two accidents in Knapp's early life, first when he was kicked in the head by a horse and second when he was rendered unconscious by a bolt of lightning. Many witnesses from Cincinnati who knew the murderer as "Luna" Knapp will also be called as to his mental condition.

There is no doubt but that Knapp will plead not guilty at his preliminary hearing, which Prosecuting Attorney Gard stated will be held here at the police station, either Monday or Tuesday of next week. The hearing in all probability will be private, in order to avoid the crowd which would naturally be attracted.

No persons save Knapp's attorneys are now permitted to see him at the jail. Jailor Clark said that Knapp is absolutely unconcerned about anything and amuses himself by playing cards with the prisoners most of the time.

Knapp has an idea, it is said, that his intended plea of insanity will clear him and his concern is attributed to that feeling.

Totally Blind.

New York, March 7.—Admission is made by Allan Sankey, son of Ira D. Sankey, the evangelist, that his father who is seriously ill at his home in Brooklyn, is totally blind at present. He said, however, that there was a chance that the sight of one eye might be restored. The evangelist for a long time did not care to have the news of his misfortune given to the world as he did not care to alarm his friends.

MARYSVILLE

Suffers From a Big Fire This Morning. Department Store Has a Loss of \$45,000.

Marysville, O., March 7.—The Southard Brothers and Court department store sustained a loss by fire and water this morning of \$45,000, with \$22,000 insurance. The fire, which was caused by spontaneous combustion, originated in the third story and by persistent efforts of the fire department, the flames were confined inside the walls of the building.

Arbor Day Named

Columbus, O., March 7.—By a proclamation given out Governor Nash designates Friday, April 17, as Arbor Day.

FERRY UPSET

Three Drowned and Eighty Had a Narrow Escape

Thrown Into a River Filled With Moving Ice and Logs

Another Ferry Boat the Neptune Was Sunk at Pittsburgh Today, 28 People on Board Being Rescued With Great Difficulty.

Glen Falls, N. Y., March 7.—By the capsizing of a scow ferryboat at Spiers Falls, eight miles from here, three Italian laborers were drowned and 80 others had a narrow escape today. The party was being ferried across the Hudson river and one of the guy ropes which guided the boat broke knocking one of the men out of the boat.

In endeavoring to rescue him the boat was swamped and the whole party was precipitated into the river.

Many were rescued with great difficulty and three men whose names have not been learned as yet were drowned.

The victims were all Italians. They were lumber workers and were last in the rapid current which was filled with moving ice and logs.

ANOTHER FERRY LOST.

Pittsburg, Pa., March 7.—The ferry boat Neptune was sunk at the foot of Chantlers street, in the Ohio river, this morning in collision with the steamer Margaret. The ferryboat is a total loss. The crew of eight men and a score of passengers were rescued with difficulty, six of the latter swimming to shore. The steamer was backing when it ran into the Neptune.

SWINDLING SCHEME

Equal in Magnitude to Any of the Notorious New York City "Syndicates" Alleged to Have Been Unearthed at Pittsburgh Today.

Pittsburg, Pa., March 7.—An alleged gigantic swindling scheme, equal in its magnitude to any of the notorious "syndicates" suppressed by the New York City police, has been unearthed by Superintendent of Detectives Demmet and this morning 6 of the alleged swindlers, members of the firm of Kerston Home Development Company, were all placed under arrest.

They were charged with conspiracy to defraud in an "own your own home" system, and bail was fixed by Magistrate Bernard McKenna.

Superintendent Demmet said today that the exposure of the scheme is expected to create a greater sensation than the closing down of the famous Irwin Pool. Very nearly 3,500 local customers had taken contracts in the firm, and it is not known how much money was received through the mail order department. The plan of the company is somewhat like that employed by the endless chain systems of the western associations that were declared by the supreme courts to be illegal.

CALLED

ENEMY TO DOOR AND BEGAN TO SHOOT.

One May Die—Middletown, O., Trouble Said to Have Resulted from an Arrest.

Middletown, Ohio, March 7.—As a result of a shooting affray on West Sixth street, James Hickey had his right eye shot out and is thought to be in a dangerous condition. Leander Cowan received a flesh wound in the back, just over the right hip, and Mrs. Proctor, stepmother of Cowan, was slightly wounded in the right wrist. The men who participated in the shooting were James Hickey a tobacco worker, who was married to Miss Grace Littlejohn, Wednesday night; Thos. Hall, bartender at the Binkley saloon, and Leander Cowan, paper mill worker who lives with his stepfather, Dick Proctor, at 115 West First street.

The story of the shooting as far as could be learned, is that Hickey and Hall, armed with revolvers, went to Cowan's home at noon and called him to the door. Cowan, scenting trouble, went upstairs after his revolver, and when he appeared at the door the shooting began. After each man had fired two or three shots, Hickey fell with a bullet in his right eye. The others were slightly wounded.

Constable Nathan Thomas, who lives across the street from the scene of the shooting, placed Cowan and Hall under arrest. The bullet was not found and after his head was bandaged Hickey was sent to the home of his wife's parents. After Constable Thomas and Officer James Palmer had placed Cowan and Hall in jail they returned to the house where Hickey was being bandaged. Constable Hickey what he cy what he had done with his revolver. Hickey replied: "I threw it away—I didn't have any."

The officers then went to the scene of the affair and found the revolvers of Hall and Hickey in the hydraulic, where it is supposed they threw them after the shooting.

As Constable Thomas claims to have placed the men under arrest, the hearing of the case will probably be held before Squire W. B. Hedding as soon as the outcome of Hickey's injury is known. Hall and Cowan were placed in separate cells at the jail, and lighting cigars, were seemingly but little troubled over their incarceration. A nominal charge will be placed against the men for the present.

It is alleged that Hickey and Hall went after Cowan because he had informed Mr. Littlejohn, father of the girl Hickey married, that Hickey was about to leave town, which Hickey thinks led to the arrest on Wednesday, followed by his marriage in the evening. Hickey is in a critical condition and may die.

If the men are young and this is their first trouble.

Killed The Man.

Much as Tenn., March 7.—Information reached here from Columbus, Miss., this morning that A. P. Talliaferro, a jeweler, shot and instantly killed Joseph Sloan, a piano dealer, late last night. The two men had a place of business in the same store, and Sloan boarded with Talliaferro and his wife. Last night Talliaferro was sick, according to his story and his wife left home and went to the store where Sloan was. When Talliaferro went down he found the door locked. Sloan jumped behind some boxes and began firing, but Talliaferro did not cease until he killed the alleged despoiler of his home.

INJURY—The gates at the Pan Handle crossing in East Newark came down suddenly on Mrs. Thomas Jones today, knocking her down, knocked off her hat and injured her nose.

MERRIAM QUIT

Directors of the Census Today Handed His Resignation to the President—Hon. David Mercer of Neb., May Succeed Him.

Washington, March 7.—Former Gov. Wm. R. Merriam, of Minnesota, director of the census, called upon the President this morning and formally tendered his resignation to take effect on May 15, when his labors in connection with the twelfth census of the United States will have been practically concluded. Governor Merriam leaves the government service to become vice president of the International Mercantile Agency of New York, organized about a year and a half ago by a number of wealthy men of the metropolis to conduct the business of rating credits, along the lines pursued by Dun's and Bradstreet's agencies.

Former Congressman David Mercer of Nebraska, has been mentioned as the possible successor of Governor Merriam, as director of the census. Under the law passed at the recent session of Congress, the census bureau will hereafter be under the department of commerce and labor instead of under the interior department, as in the past.

OHIO RIVER

Rapidly Rising and Danger Line at Paducah, Ky., is Passed—Other Streams Booming.

Paducah, Ky., March 7.—The Ohio river is rising rapidly and there is fear of a great flood. The persons living in the districts likely to be submerged are preparing to move. The danger line, forty feet, was passed last night and at 10 o'clock this morning the gauge read 40.3. The rains have aggravated the conditions. The Cumberland, Tennessee and Wabash rivers are booming, making the situation serious in the lower Ohio Valley.

The Crown Princess.

Dresden, March 7.—Former Crown Princess of Saxony has not yet acceded to the wish of the Saxon court that she promise to hand over to their custody the child. The Princess wishes to make it the price of her renunciation that she be permitted to see all her children at frequent intervals. The king is not willing to grant this request.

PETITION

For Dissolution of Injunction May Not be Filed Before Monday in Wabash Strike.

St. Louis, March 7.—Vice Grand Master Lee of the Brotherhood of Trainmen, officially denied the statement that in the event of a strike on the Wabash, other roads will go out in sympathy. The fight, he declares, will be with the Wabash only. Attorneys for the trainmen this morning resumed work on their petition for a dissolution of the injunction. It is not likely that the petition will be filed before Monday.

PHIPPS AND AMERICAN LABOR.
Henry Phipps, who rolled up a fortune in connection with the starvation wages long paid by the Carnegie company, is playing Prince Magnifico in the far east.

While poverty stalks the regions where his corporation subdued a strike with guns he has given the governor general of India a large fraction of a million dollars to be used in developing that portion of the British empire.

Never was there a more conspicuous violation of the proverb that charity should begin at home.

Phipps was shrewd enough to collect his interest, however, in advance. Special attentions to Phipps as a guest at the governor general's recent durbar secured the donation of a fortune got out of the sweat and starvation of American labor.

Among the labor measures that a Republican majority has shelved in the Senate are the anti-injunction bills, the railroad appliance measure, and the immigration bill. It is very well known who are the opponents of these salutary measures. They are great combines, the shipping steel and other trusts, who are deadly foes of any measure that is designed to help workmen. They fear most the passage of the anti-injunction measure, which would curb the power of federal judges to issue sweeping injunctions that deprive laboring men of every right which the constitution has conferred upon them.

Early in the morning of March 4, Senator Quay announced that during the next session of Congress four new states would be admitted to the union. He was explicit about it. He declared that the new states would be Oklahoma, New Mexico, Arizona and Indian Territory, or Aborigines, as it may be called when it ceases to be a territory. As a great portion of this vast territory was acquired under the administration of Jefferson, the proper thing would be for one of these new States to be given his name.

If, as the president, governor and vice governor appear to hold, the reduction of duties on imports from the Philippines to one-fourth the Dingley law rates, will save the islands from industrial and commercial ruin, would not their absorption altogether give a hope of the prosperity which had been promised as the consequence of "benevolent assimilation"?

Artemus Ward once eulogized the first president by saying that he never slopped over. If the latest president had followed this illustrious example he would not have written that letter to Speaker Henderson complimenting him and Congress on the work done at the recent session.

It will be worth while to preserve the list of 800 trusts compiled by Congressman Littlefield and see at the end of a year, how many of them have succumbed to the drastic and vigorous anti-trust legislation enacted by Mr. Roosevelt's Congress.

J. H. Miller of the B. & O. oil house is home sick with the grip.

GREAT HANNA SCHEME

Roosevelt to be Turned Down and Hanna Nominated

Then it Will be Hanna for President, Dick for Senator, and Herrick for Governor--How These Bosses Are Planning to Grab all the Offices Themselves.

Columbus, March 7.—Notwithstanding the imminence of the municipal elections in Ohio, national politics in the state from a Republican standpoint has taken a decided turn during the past few days. The change is from Roosevelt to Hanna, and in the opinion of some of the strongest Hanna men in Ohio presages the latter's nomination for president to succeed the present occupant of the White House. The scheme also involves the election of General C. W. F. Dick to succeed Hanna as United States Senator. In authoritative circles this is now given as the reason for Dick's heretofore inexplicable consent to being sidetracked for governor in favor of Colonel Myron T. Herrick. The Republican scheme in Ohio has gone up several notches and now points to Hanna for president, Dick for senator and Herrick for governor. This produces enough harmony to go all around, except in the Roosevelt circle, which has lately become so contracted that the Hanna people are not inclined to give it much attention.

There is no doubt that the Hanna boom is growing and that the supreme boss is in a mood to facilitate the growth by every means in his power. Recent presidential appointments have drawn a clear line of hostility between the Hanna and Roosevelt forces in this state and the friends of the senator no longer make any attempt to conceal his possibilities as a presidential factor. Alabama has started the ball rolling by deciding to call a new state convention that will declare in Hanna's favor. Other Southern states are expected to follow suit and a few will gather in the north, east and west. Ohio will remain in the background for appearance sake, since Hanna wishes to appear as having the crown thrust upon him and as not going after it himself. The positive action of President Roosevelt in the matter of the appointment of colored men to federal offices in the south has antagonized the Republicans in that section and given Hanna a pretext for building up a personal machine in the land of perpetual sunshine. In other sections prominent Republicans are beginning

Cold Grub

You may get plenty of exercise and at the same time your stomach and bowels will get out of fix. You wonder why—It's easy. You eat a cold meal in the middle of the day, wash it down with hot coffee or cold beer, finishing off with a lot of indigestible pastry and go back to work. If you will take a dose of

Dr. Caldwell's Syrup Pepsin

every night, it will unload your stomach and bowels and you will soon be able to eat anything without suffering.

W. E. Oswald, of Ottumwa, Ia., writes under date of April 1, 1901: "I will take this means to inform you of the benefits I have received from using your Syrup Pepsin. I have been troubled for three years with my stomach. In fact could hardly keep down anything I could eat, and had spent between \$100 and \$200 with doctors, without getting relief. One day I saw Syrup Pepsin advertised and as I had tried everything else, I gave Syrup Pepsin a trial, and after the first dose, I could eat without nausea. I have recommended Syrup Pepsin to a number of persons who used it with entire satisfaction. I will add that a friend stated he would have been willing six months ago to part with a 400 acre farm for the relief he has obtained."

to talk for Hanna for alleged "business" reasons. The great financial interests in the country, and especially those that thrive on violation of the anti-trust laws, are alarmed at the idea of Roosevelt's renomination and are daily emphasizing their desire to throw their influence in favor of Hanna as their special friend and champion.

Again, the beet sugar growers and the powerful opponents of reciprocity are not favorable to Roosevelt. All special interests that derive enormous profits from legislation taxing the people in favor of the corporations are ready to dump Roosevelt the moment the word is given. It is no longer denied among men prominently identified with the Republican organization in Ohio that Hanna is a receptive candidate and, as a matter of fact, his boom for president, excepting that it is not avowed, is as well launched to day as Herrick's boom for governor.

It is understood here that all the arrangements have been made to insure the New York delegation to the next Republican national convention for Hanna. In connection with this plan to knive Roosevelt in his own state is another which has in view the nomination of Cornelius M. Bliss for the vice presidency on the ticket with Hanna. It is claimed here that the New York Republican leaders are practically agreed on this program. Numerous meetings of prominent New York politicians have already been held in New York City and in various parts of the state with a view to shaping up the details of the object in view. Hanna's Ohio friends are now the loudest in declaring that it is a simple impossibility for Roosevelt to get the backing of his own state in the next national convention and that therefore the honors of that gathering will be forced upon Hanna even if it is against his will. The same people, who certainly ought to know what they are talking about, assert with equal positiveness that New York will support Hanna and Bliss. According to their statements the remainder of the program in the other leading states of the union will be a comparatively easy matter, with the South and the Empire state solidly lined up for the Ohio boss.

STRIKE IN NEW YORK.

New York, March 7.—About one hundred bridgebuilders employed by the American Bridge company, are on strike here. The union threatened a general strike among their men employed by the company but less than one-sixth of the men went out. A representative of the bridge company asserted the strike was ordered in sympathy with the strike of the 700 housebuilders employed by the company in Pittsburgh. The strike in Pittsburgh, it was said, at the offices of the company, was brought on by a union delegate out of personal spite.

Hon. John C. Jones, an attorney of Toledo, is here visiting his sister, Mrs. William Wilson. Mr. Jones was a member of the 75th general assembly of Ohio.

The railroad boys are relating a little experience that B. & O. Engineer James Bradley had Friday. Mr. Bradley went to La Rue on the cars for a fox chase and took a cake of limburger cheese and buns along for a lunch. He went through the country to meet a party but failed to find the men who had agreed to join him. After a long search he gave up the hunt and footed it back home.

COURT OF HONOR—Newark court of Honor No. 814 met with a goodly number present and a social session for the good of the order followed. Several candidates had been ballotted on and were elected. The next meeting will be held March 10, at Red Men's hall. As there will be initiations and other work of importance it is hoped that all members, especially the drill team, will be present.

BLIND

CAN SEE WITH BRAIN IT IS CLAIMED.

Professor Stiers Invents a Wonderful Apparatus Which is Tested With Success.

Paris, March 7.—What is claimed to be a marvelous discovery due to Prof. Peter Stiers, is made public by Dr. Casa in the Revue des Revues, under the title, "And the Blind Shall See." Prof. Stiers claims to have found out the secret of restoring sight to the blind by a wonderful apparatus of his own invention which not only restores sight to those who have lost it, but gives it to those who have never beheld the light.

Dr. Casa explains how the professor put his invention to the test by taking him into a dark room and bandaging his eyes. He could see nothing, but he heard the professor walking backward and forward, striking matches and lighting lamps. Then he felt him fix an apparatus round his temples and instantly he saw a dim light by which he could distinguish surrounding objects. By and by the light became stronger, and Dr. Casa could count the fingers of his hand as he held it up and tell the number of chairs in the room. Just as he was feeling that if the experiment was continued he would recover normal clearness of vision the professor suddenly removed the apparatus, and Dr. Casa was plunged into total darkness.

Prof. Stiers showed that a man sees not with the eye, but with the brain. The eye only serves to receive the image of the optic nerve and transmit it to the seat of perception.

Blind people form through the sense of touch a very exact idea of the external conformation of objects. If a man were deprived of his eyes any one of his organs could make up for the deficiency. Certain of the lower animals have no organ of vision. In their case it is the whole of the body which perceives light. If, therefore an image can be transmitted to the brain without the help of eyes a blind man could have a sense of perception as clearly as a seeing man.

Stiers' apparatus has the same scientific basis as the telephone and in the transmission of light rays, plays a part identical with that performed by the telephone in the transmission of sound waves. Many medical men have experimented with the apparatus but none can explain the astounding results obtained.

Statehood Bill.

Washington, March 7.—"It is to be regretted that we did not secure statehood," remarked Delegate Flynn, of Oklahoma, this morning, "but it is certain that Oklahoma with part of Indian Territory, will be made a state at the next Congress. An agreement was tacitly entered into to this effect and when the enabling act is passed, it will contain proper provisions for a school fund in the Indian Territory so that Oklahoma will not have to bear the entire burden of providing educational advantages in the new state. It is a pleasant fact that both Republicans and Democrats recognize the readiness of Oklahoma to become a state, and it is a practically unanimous feeling that she should be admitted into the Union at the earliest possible day."

Mr. Flynn retired from Congress to engage in private business and will leave for his home early next week.

NEXT GREAT REVIVAL—Sunday evening Rev. T. L. Kierman, pastor of the Plymouth Congregational church, will deliver a sermon that will no doubt attract considerable attention. His subject will be "What will be the character of the next great revival in America." The four great national awakenings in this country will be reviewed and the change emphasis shown in the preparation we are now making for the next great religious movement.

Women Discuss the Subject

"What Could Be Done For Newark?"

AN INTERESTING PAPER BY MRS. CHAS. C. RANKIN

READ BEFORE MONDAY TALKS.

The First Thing to be Done is to "Clean Up" the City—and Then Keep It Clean.

"What Could be Done for Newark." This was the subject of a discussion following a paper on "Civic Awakening in America," presented at the last meeting of the Monday Talks by Mrs. Charles C. Rankin.

It was the consensus of opinion that several things might be done toward the beautifying of Newark, but that prior to any successful embellishment her greatest need was for a bath, so to speak, embarrassing as the admission may be.

One member advanced the opinion that while the streets about the square were seldom clean, while peanut shells and vague portions of bygone lunches trailed up the steps and even into the very boudoir of the Goddess of Justice, the little cages of flowers set about the court house were feeble and ineffectual as a decorative feature.

A member from Hudson avenue observed that even when the street sweeper had emerged from its retirement and had done its duty by the public square, various merchants would immediately afterwards sweep the day's accumulation of papers and other misplaced matter into the street, apparently holding that their responsibility ceased at the curbstone.

Another suggested the difficulty, not to say impossibility, of inculcating in the young soul a proper appreciation of the beauty of a "primrose by the river's brim" when for miles about Newark the river banks are sown with garbage and tin cans past the bright and hopeful period of youth.

Improvement Associations have organized over quite an extensive area. Marietta has one in successful operation. Besides a full equipment of officers, this Association has the following annual committees: Public Sentiment; Ways and Means; Sanitation; Street Sweeping; Sidewalks; Parks and Squares; Indian Mound and Grounds of Public Buildings.

Dayton also has an Improvement Association, and the headquarters of the National Association are at Springfield, Ohio.

Mrs. Rankin's paper was as follows: One of the most hopeful chapters in the record of American progress in civilization, is that which tells of the development of a more beautiful life for the people at large. The love of the beautiful probably exists in every human being, and, in some shape, strives for expression.

To unfetter it, to give it the means of intelligent utterance—that is one of the great aims of civilization. In the movement toward this end the unit is found in the embellishment of the home and the home life. Here, its expression is an affair of the individual or of the family alone, except in so far as it is shared with friends and guests. This is a vast field in itself and the myriads of beautiful homes throughout the length and breadth of the land bear witness. But the moment we step outside our doors what we do begins to concern others and thereby we enter more or less into relations with the world at large. As a rule, every person shapes his home surroundings, without and within the house chiefly to suit himself. But in external conditions he usually begins to be governed by the motive of winning public approval, the desire to please the sentiment of the community in which he lives. One has a sense that others are affected by what he does. There are few who deliberately choose to offend public sentiment. Shortcomings usually proceed from indolence, ignorance, or perhaps from a perverted taste that deems the bad to be good. But wherever a standard in these things has been set, the average citizen is likely to conform to it.

It is with the growth of these standards that we have to do, the

progress of the movement that is giving attractiveness to villages and towns, lending them beauty and charm, and making life therein more worth the living; that is spreading out through the countryside and enriching and beautifying life there; and that is bringing touches of nature into the desert hearts of great cities. Many are the ways in which this spirit is making itself felt: in more beautiful home surroundings, in better architectural standards, in better kept highways, improved paving, good sidewalks, &c., in the beautifying of public places, creating parks and play grounds, planting shade trees in town and country, protecting scenes of cherished beauty and setting them apart for public enjoyment, and in organizing associations for accomplishing some of these ends through voluntary effort, and inducing action on the part of municipalities, &c., toward effecting other improvements of perhaps more comprehensive character.

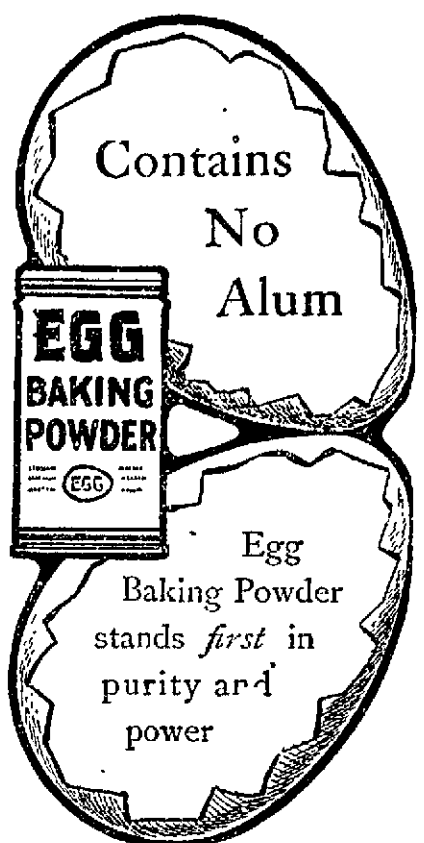

The beginning of the new century has witnessed many achievements in these directions. Hundreds of communities, in all parts of the country, have responded to the movement and are growing beautifully and intelligently. In many instances the transformation has been wonderful. In some of the newest and crudest communities, which seem hopelessly involved in raw ugliness, the response is of the most alert. Streets that were a wide slough of mud in wet weather, and suffocating in dust in dry weather, became well and smoothly paved. Cities that had a slouchy, unkempt and vulgar appearance, now have good buildings on every hand, pleasant and tasteful homes, as a rule, the whole city well groomed in appearance and the seat of a genuine civilization.

Perhaps no better term for characterizing this movement can be found than "civic beauty." Under this designation would be embraced all the aspects of the striving for the beautiful in our daily surroundings—the beauty that relates to citizenship, from the activities of the individual in making his home a harmonious element in a beautiful community, to the various forms of activity as expressed in streets, schools, shops, in industries, in churches, in civic buildings, into one beautifully ordered whole.

Almost half a century has passed since the movement took organized form in a little mountain town in western Massachusetts. Stockbridge was a right shabby-looking country town in 1853, and a sense of its shabbiness prompted a refined young lady—Miss Mary Gross Hopkins—now Mrs. J. F. Goodrich—to organize a society to make the town a beautiful one, the expressed purpose being to encourage the civic spirit by preserving the historic associations of the place and in various ways awakening a sense of pride in the community. That the most intensely practical side of a thing is found in the ideal is exemplified in the history of this society. Its ideal was "civic beauty," and the beauty that had headed, matter-of-fact persons are so apt to scoff at, asking "What is it all worth?" Soon turned into hard dollars and cents for the whole region. Clothed with beauty as with a garment, the fame of the place spread abroad as a place well worth living in. Every dollar expended for beauty has brought thousands back. Close by, in response to this spirit the town of Lenox has become a world-famous pleasure resort and the country round about is filled with palaces.

The example of Stockbridge speedily became contagious, and made a garden of many Massachusetts towns. This pioneer organization of its kind became the Laurel Hill Village Improvement Society of Stockbridge. From the fact that a beautiful hill of that name, given by a public-spirited family as a pleasure ground for the people was transferred by the town into the keeping of the association. The annual meetings of the society on this hill are famous festival occasions, and the park has been made worthy of the trust.

Important civic improvements were maintained: examples early set soon sidewalks were improved and neatly undertaken at the start. Streets and made general a high standard in the care of house and grounds. The town was induced to establish water works and to light the streets. The society cooperated with the railway company and paid half the cost of a tasteful station and of enlarging the station grounds to a spacious and beautiful garden. The old Indian burying ground was preserved and marked with a picturesque and simple monument of unknown granite, bearing the inscription: "The Friends of Our Fathers."

Such a collective public spirit naturally promoted public spirited beneficence in individuals. Stockbridge was the home of the celebrated Field family. Cyrus W. Field gave \$10,000 for a park and 58 acres of beautiful land. His brother, David Dudley Field, erected on the common a clock-tower with chimies and left in his will a fund of \$5,000 partly for its maintenance and partly for keeping the cemetery in order. To the influence of this society, are due a fine public library, a collection of historic relics, including the writing-table of Jonathan Edwards who was long a pastor there. Also the village casino and monuments to soldiers of the Revolutionary and Civil Wars.

The constitution of this society has furnished the model in the organization of many similar improvement associations throughout the country. The objects are stated to be to improve and ornament the streets and pleasure grounds of Stockbridge by planting and cultivating trees, cleaning and repairing sidewalks and doing such other acts as shall tend to improve and beautify the village. The planting or protection of a tree, under the direction of the committee, or the annual payment of \$1 or its equivalent in labor, entitles a person to membership; but any child under 14 years is eligible on payment of 25 cents or its equivalent in labor. Twenty-five dollars down or three annual payments of \$10, entitles one to "life" membership.

To come nearer home. There is a national league of Improvement Associations with headquarters in Springfield, Ohio, which has done considerable effective work in spreading an interest in the movement, and now that the Federated Women's Clubs of the country are giving their attention to the work, we may look for systematized efforts that cannot fail to yield rich and abundant fruit. Since the work originated with a woman, and women have generally played a leading part in these improvement organizations, it seems particularly appropriate that the organized women of the country should take the work definitely in hand.

An important question is: How can such work be made most effective—productive of the best results, and enduring?

First the aims should be definitely understood, and the most practical methods for their realization should be adopted. The question of who does the work is of primary importance. So far as possible, the co-operation of all classes—the "leading citizens" and the workers should be sought. It should be kept free from the suspicion of cliques, or for working for any particular or sectional interest. The latter has been a stumbling block for such associations when formed in sections of cities; in some instances they have been known to work for local public improvement at the cost of the whole community and against the interest of other sections, and have degenerated into instrumentalities for selfish if not corrupt politics. The highest motives of public spirit should be professed and adhered to. It is also important that both sexes should engage in the work. Women have more leisure for such tasks and show an intentness and directness of purpose that give great capacity for working to definite ends. On the other hand, especially when public actions are desired, the fact that men are engaged in the work is likely to have weight in its favor.

First, in order in activities of this sort comes cleanliness. Clean streets and public places, clean private premises—with these secured the first grand transformation in the community takes place. When noisome breeding rubbish heaps are cleared away,

and vacant lots covered with all sorts of litter are cleaned up, everybody notes the improvement and is interested in seeing it maintained. Orderliness, of course, goes hand in hand with cleanliness. With good order there is an aspect of neatness that commands popular respect. It pleases the public eye. Nearly everybody will desist from throwing rubbish into a well-kept place and from scattering torn paper or other litter in a clean street. Public sentiment ought to be easily cultivated in favor of public cleanliness and order.

A notable instance of its growth is to be found in the agitation against spitting in public places, since it was determined that the practice was a danger to public health. The posting of notices with regulations against it and the frequent discussion of the subject in the press, have made a strong impression upon public sentiment, and in consequence the offense is not practiced to anything like the same extent in those communities where there has been such agitation.

The final aim is the achievement of beauty. To this cleanliness and order lead. Without them there can be no real civic beauty. But cleanliness and order are not sufficient in themselves. Indeed, at times, they become antagonistic to beauty. There are certain forms of beauty for instance which when unappreciated, are considered unbecoming and are held in abhorrence. Perhaps the most familiar example is found in the country wayside, grown up with brush and briar and presenting a charming tangle of wild luxuriance that over delights the eye—common bushes of all kinds, elder and wild rose, Virginia creeper, clematis, and blackberry and hundreds of other beautiful things. But all this means untidiness and nothing more to the eye untrained to beauty. So every few years a "springing up" fit seizes the town authorities and a gang of men sallies forth armed with scythes and mows everything, leaving the road margins a roughly, naked, arid waste. Little good has been accomplished by all this. The money and energy expended might profitably have been employed in making good roads. But the public should be impressed with the fact that the aims sought are not venacular: that mere prettiness, the trimming of things as with a sort of civic millinery, is by no means the end in view. That the objects of civic improvement mean good practical work for the benefit of the community; as for fact, everything possible should be done, for instance, in securing the friendship, good will and sympathy of the powers that be. Let friends be made with the press: its help will be invaluable and, as a rule its sympathy can be easily gained for genuine, public spirited work untainted with crankery or fanaticism.

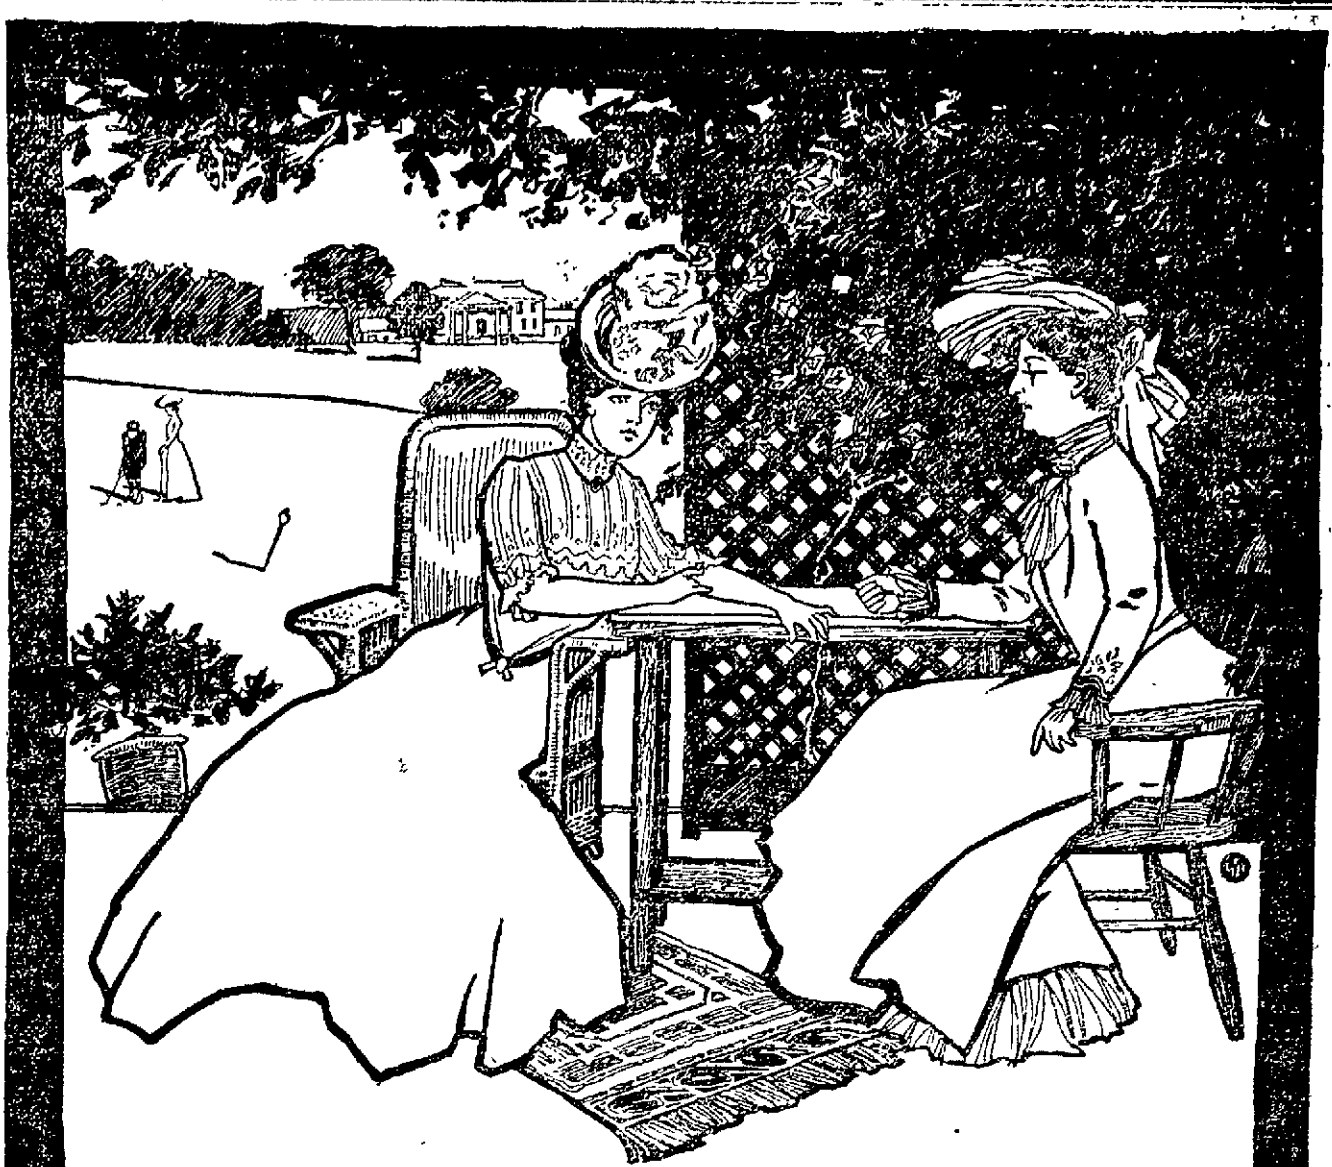

There is no doubt, but civic improvement of the right kind promotes the general health and lowers the death rate of a place, because cleanliness is sanitary. Beauty—this encouraged has an elevating and refining effect and not this alone, it has also a market value, bringing prosperity to a community. Where there is a will for civic improvement, it certainly ought not to be difficult to find a way to carry it into effect. There is certainly plenty of work to be done.

SECRETS

At the Price of Suffering. Women on her way to semi-invalidism caused by pregnancy suffers much pain. Ignorance prompts her to suffer alone in silence and remain in the dark as to the true cause—Mother's Friend. Mother's Friend takes the doctor's place and she has no cause for an interview. She is her own doctor, and her modesty is protected. Daily application to the breast and abdomen the mother's pregnancy will be able her to undergo the period of gestation in a cheerful mood and rest undisturbed.

Mother's Friend is a liniment for external use only. It would indeed be shameful if the sacrifice of modesty were necessary to the successful issue of healthy children. All women about to become mothers need only to take a drug store and for \$1.00 receive the price of childbearing. Healthiness are the result of using Mother's Friend. Confide in a Woman

Women may write about their ills to Mrs. Pinkham, and avoid the questioning of a male physician. They can tell their story without reservation to her; she never breaks a confidence, and her advice is the best in the world.

The questions asked of a woman by a male physician are embarrassing, and often revolting to a sensitive nature. In consequence the whole truth is not told; this makes it difficult for female troubles to be successfully treated even by the best physicians, and is the reason so many women grow worse rather than better. A woman understands a woman better than a man, — there are symptoms which sick women have that a man cannot understand, simply because he is a man, but the whole truth may be told to Mrs. Pinkham, and her vast experience enables her to give advice which leads to a cure.

All women who suffer should secure Mrs. Pinkham's advice; it costs nothing but a letter addressed to her at Lynn, Mass. Female troubles are real troubles, and must be treated understandingly. For a quarter of a century Mrs. Pinkham's advice and Lydia E. Pinkham's Vegetable Compound have been helping women to get strong and well, and her great file of letters prove that more than a million women have been restored to health and strength by her advice and her medicine when all other means have failed.

When you go to a druggist for Lydia E. Pinkham's Vegetable Compound, do not let him persuade you to try something which he says is just as good; there is nothing just as good, because Mrs. Pinkham's medicine holds the record for the largest number of cures of any female medicine in the world.

LEST YOU FORGET. We mention the fact that \$1000 insurance in the Bankers' Life association, of Des Moines, Iowa, will cost you at age 25, \$5.47 per annum; age 30, \$6.57 per annum; age 35, \$7.66 per annum; age 40, \$8.76 per annum; age 45, \$9.85 per annum. All ages between 21 and 50 years comparatively as low. We have securities to back this proposition, deposited with the state department, amounting to \$7,500,000.00. Call on or address H. M. AMUSEMENTS.

Haverly's Mastodon Minstrels will be the attraction at the Auditorium Wednesday night, March 11, and American's premiere comedian, "the famous George Wilson," has been engaged as the principal entertainer. He is the greatest black faced monologist before the public and is known all over the country where he has been the favorite in his line. For many seasons, his drooleries have made thousands laugh. His discourses are always up to date, and his witty remarks fairly bubble over with genuine fun. The Carl Darmann troupe of acrobats and gymnasts in their Pot-Pourri of wonderful feats of strength and dexterity, will no doubt create a sensation. Haverly's Mastodon Minstrels is under the directorship of Will Nankeville, who was for years the leading vocalist of the Haverly Mastodons, which in itself is evidence that the vocal corps of the present grand organization is of the best, and make up of the leading singers in minstrelsy. There are many novel things introduced during the brilliant performance and there is no doubt that this company is the leader of all others presenting a similar kind of entertainment. Francis W. Sutherland "the South" of minstrel band masters and a band of players is the attractive feature of the newly arranged parade which occurs about 11 45 a. m.

TRY THIS TEST.

And see if your Kidneys are Diseased.

A very simple way to determine whether your kidneys or bladder are diseased is to put some of your urine in a glass tumbler and let it stand 24 hours; if it has a sediment or a cloudy, ropy or stringy appearance, if it is pale or discolored, you do not need a physician to tell you that you are in a dangerous condition. Dr. David Kennedy's Favorite Remedy speedily cures such serious symptoms as pain in back, inability to hold urine, a burning scalding pain in passing it, frequent desire to urinate, especially at night, and the staining of linen by your urine.

The Rev. Aaron Coons, D.D., pastor of the M.E. Church of Rinecliff, N.Y., says: "I most sincerely believe that Dr. David Kennedy's Favorite Remedy is the best kidney, liver and blood medicine made, and I urgently recommend it, for I know by experience it will do all that is claimed for it."

"Favorite Remedy" is a vegetable help to the stomach and bowels in performing their duties properly. It overcomes and permanently cures dyspepsia, indigestion, biliousness and rheumatism. It is absolutely harmless and purely vegetable. It contains no narcotics or minerals in any form, no dangerous stimulants, no mercury or poisons, and is the only kidney medicine that does not constipate.

It is for sale by all druggists in the New 50 Cent Size and the regular \$1.00 size bottles—less than a cent a dose.

New Punching Machine.

The Scheidler works received Friday the largest punching machine ever brought to Newark, which will be used in the shops on First street. The ponderous iron piece is of immense capacity, purchased in Cleveland, and weighs 24,000 pounds. It will punch holes from the smallest size up to six inches with one stroke. The machine is on a platform car near the Pan Handle passenger depot and will not be unloaded until Monday as it will require great care and proper handling to place the machine in the works.

Beware of Ointment for Cataract That Contains Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Cataract Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Cataract be sure you get the genuine. It is taken internally and is made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by druggists, price, 75 cents per bottle. Hall's Family Pills are the best.

WEEK'S CLUB NEWS

The Review club was entertained this afternoon by Mrs. T. M. Edmiston at her new home on Hudson avenue.

On the 13th of April, the Monday after Easter, Mr. Walter Ball with a mixed quartette of the leading singers of Columbus, will present in Taylor Hall, "In a Persian Garden" from the Rubayat of Omar Khayyam.

The Brightening Circle of the King's Daughters held a box social on Wednesday evening at the A. O. U. W. hall. Each young lady took with her a box of lunch. The boxes were sold at auction, and were purchased by the young men, each one of whom had for his partner at supper, the owner of his box. It was a unique plan. The candy table was very popular, and this benevolent society of young girls was enriched and made happy by Wednesday evening's social.

The Monday Talks met this week with Miss Spencer at her home on North Fourth street. After roll call, the following program was given:

Memories of the Lyceum, Mrs. Lora Smythe. Civic Awakening in America, Mrs. C. C. Rankin. What Could be Done for Newark—Discussion by club leader, Mrs. John Tucker.

The annual business meeting of the Progressive club was held at the home of Mrs. George Franklin. Smith; recording secretary, Mrs. Charles Allen; corresponding secretary, Miss Ethel Pitzer; treasurer, Mrs. E. S. Miller; librarian, Mrs. Geo. Franklin; auditor, Miss Josephine Veach. Mrs. Oscar Stevens was elected chairman of the program committee.

The Investigators were entertained Monday afternoon by Mrs. J. R. Sook at her home on North Fourth street. Roll call was responded to with quotations from Tennyson, and the following program was given:

Charter Sketch—Alfred Tennyson, Mrs. J. M. Ickes. Reading—"Across the Bar," Miss Florence King. Analysis of Enoch Arden, Mrs. Gillespie. Analysis of Tennyson's Maud, Mrs. Stephan.

Cycle of Songs from Maud, set to music by Arthur Somervell, Mr. Bentley Ball.

This cycle of song tells the story of Maud in twelve songs under the titles of:

- 1—I Hate the Dreadful Hollow.
- 2—A Voice by the Cedar Tree.
- 3—She Came to the Village Church.
- 4—O Let the Solid Ground.
- 5—Birds in the High Hall Garden.
- 6—Go Not Happy Day.
- 7—I Have Led Her Home.
- 8—Come Into the Garden, Maud.
- 9—The Fault was Mine.
- 10—Dead, Long Dead.
- 11—O That 'Twere Possible.
- 12—My Life has Crept so Long.

The Alberta club gave the second one of their enjoyable dances Thursday evening. The chaperones were:

Paine's Celery Compound

Takes Her Safely Into After-Life Free From the Ailments and Dangers Common to Her Sex.

Change of life, which usually comes on between the age of forty and fifty, is to thousands of women a time of serious constitutional disturbances. The danger time is made known by irregularities, stomach derangements, headache, nervousness, pain in back and hips, limbs and abdomen, frequently swell, piles do their annoying work, there is vertigo, palpitation of the heart and debility.

MRS. NELLIE TAYLOR, Of Solon, Ohio, Who Has Been Restored to Health by Paine's Celery Compound.

When any of these warning symptoms are experienced the use of Paine's Celery Compound will do wonders for anxious and suffering women. Paine's Celery Compound used regularly for a few weeks will build up nerve force and physical strength, tone digestion, keep the kidneys and liver in working condition, will banish gloomy fears and give sweet sleep. It has saved thousands of women from terrible sufferings and death. Miss Anne Pasold, of De Witt, Iowa, tells how Paine's Celery Compound made her weaker well and strong; she says:

"My mother was taken very sick by approaching change of life and was confined to her bed for seven weeks. We employed the best doctor, but his efforts were of little avail. She could not keep anything on her stomach, could not sleep and she wasted to a shadow. We procured a bottle of Paine's Celery Compound for her. Its use gave grand and wondrous results. She soon slept well at night, got stronger and her appetite returned. She is now well and strong and does her work with pleasure. She would not be without Paine's Celery Compound for any consideration."

Mrs. Ed Williams, Mrs. Black, Mrs. Charles Miller, Mrs. Dr. Latimer, Mrs. Harrigan and Mrs. W. Davis. Each of the chaperones was presented with a bunch of carnations tied with ribbon of the club colors, purple and white. The dancers were Misses Lillian Kammerer, Cora Duncan, Addie Jones, Mary Russell, Alice Burch, Mary Henthorne, Zoe Caldwell, Lina Shaffer, Mabel Traxler, Grace Fulton, Gladys Hilliard, Bertha Fulton, Kate Vance, May Solu, Alice Barker, Verona Martin, Mable McCre, Stella Howard, Roxie Allen, Winnie Fulton, Ethel Brillhart, Marion Hatch, Mary Neal, Ruth Hatch, Ethel Metz, Carrie Hillier, Faith Roe, Francis Priest, Bright Hilliard, Anna Davis, Bertha Latimer, Myrtle Miller, Lulu Traxler, Fay Marlowe, of Granville; Messrs. Bad Wreck Near Barnesville, But Luckily Nobody Was Hurt—Delay of Five Hours.

A bad wreck occurred at 2:30 o'clock Friday afternoon on the C. O. division of the B. & O., which was very lucky in not having a list of killed and injured accompanying the account of its happening.

The accident happened to west-bound freight first 25, in charge of Conductor Thomas McDermott, in a cut a mile and a half west of Barnesville, and was caused by a car jumping the track. Six others followed and the seven piled up in a confusion of splintered timbers and twisted iron.

The wreck train from Benwood experienced considerable difficulty in clearing the tracks, as the wreck occurring in a cut the cars could not be thrown to the side of the track, nor down an embankment.

Train 47 was detained via the C. & M. V. and arrived in Newark over the Pan Handle at 11:30 o'clock over four hours late.

American Railways. London, March 7.—The report of Col. A. H. Yerke, chief inspecting officer of the board of railways, a department of the board of trade, who recently investigated American railroading in behalf of the board of trade, was issued last night. Colonel Yerke found much to interest him in the practical construction of American railroads, but decided that comparatively little of it was available for English use, chiefly because the expense of a change would nullify its advantages.

He was much interested in the automatic and other mechanical devices, but thought the gain was counterbalanced by the increased risk to passengers and employees which in the case of automatic signaling might be due to the weather or possibly to the failure of the mechanism. The Colonel thinks Great Britain must adopt a more economical freight car, but he does not believe it will be advisable to copy the American designs. He proves decidedly the American system of examination in the railroad service and says in this respect the American railroads are ahead of the British companies. Colonel Yerke points out that New York and Boston furnish valuable lessons to London in the matter of urban car lines because these cities outlined the system needed and financed the undertakings, not leaving the concession to be scrambled for by private companies.

In conclusion the Colonel pays a tribute to the uniform courtesies including those received from President Roosevelt and the facilities extended him and expresses the hope that he will be able to return to American and traverse the entire United States in his work of investigation.

Local Railroad Notes. Pan Handle No. 2 had two cars of German immigrants to Chicago last evening.

MISS MONIE BOWEY, No. 38 Perry Street, DETROIT, MICHIGAN.

A couple of winters ago I slipped on a frozen sidewalk and fell flat on my back. On being examined I found that I had sustained internal injuries which laid me up for more than two months. After that I noticed that I had pains in the back and groin which I never had before. I doctored and doctored for several months but as the pains increased instead of growing better I decided that I was not having the right treatment. Reading in the papers of the wonderful cures performed by Wine of Cardui I wrote to one of the parties and received a very satisfactory reply and I immediately sent for some. In a very short time I felt generally better and after seven weeks faithful use I was once more well and strong. I have never had a sick hour since and I daily bless your splendid medicine.

MONIE BOWEY.

WINE OF CARDUI is one medicine on hand in every home for immediate use when female weakness first makes its appearance. Miss Bowe's painful and dangerous accident would not have resulted so seriously had she taken Wine of Cardui promptly.

Wine of Cardui makes women more womanly by curing their weakness and making them stronger. Wine of Cardui cured Miss Bowe. As a medicine for all women in every trying period of life you can think of a better medicine for yourself, your sister, your daughter or your mother? Can you think of a more acceptable present to give your friend than a bottle of this medicine which will bring her health and happiness? You are suffering? Your duty is to rid yourself of this pain. If your daughter, mother, sister or friend is sick and in need of relief, your duty is equally great to them. Many women, now well, owe their lives to friends who brought them Wine of Cardui.

Wine of Cardui is adapted to women at any age in any walk of life. For the working woman it gives her strength for her tasks and better treatment than a doctor for very small cost.

Your druggist will sell you a \$1.00 bottle of Wine of Cardui. Secure the medicine today. Take it in the privacy of your home. Relief will come to you as surely as you take it.

WINE of CARDUI

A million suffering women have found relief in Wine of Cardui.

Why Syrup of Figs is the best family laxative

It is pure.
It is gentle.
It is pleasant.
It is efficacious.
It is not expensive.
It is good for children.
It is excellent for ladies.
It is convenient for business men.
It is perfectly safe under all circumstances.
It is used by millions of families the world over.
It stands highest, as a laxative, with physicians.
If you use it you have the best laxative the world produces.

Because

Its component parts are all wholesome.
It acts gently without unpleasant after-effects.
It is wholly free from objectionable substances.

It contains the laxative principles of plants.
It contains the carminative principles of plants.
It contains wholesome aromatic liquids which are agreeable and refreshing to the taste.

All are pure.
All are delicately blended.
All are skillfully and scientifically compounded.

Its value is due to our method of manufacture and to the originality and simplicity of the combination.

To get its beneficial effects—buy the genuine.

Boys and Girls This is For You to Read

Every boy and girl reader of the Advocate who has not yet passed the sixteenth birthday anniversary, is invited to participate in the Advocate's rebus guessing contest—to solve the puzzle pictures that have appeared in this paper daily since February 24th. It is not yet too late to enter the contest.

Because the demand for extra papers has been so great, because a number of the boys and girls were a few days late in becoming interested in the rebuses and so many have lost or misplaced the coupons already cut from the Advocate, the ten pictures constituting the first series are here reproduced in order that every boy or girl reader may still have an opportunity of entering this contest and of participating in the cash prize distribution.

Already Coming In.

A number of contestants today submitted their coupons and 100 word articles but those who have not as yet solved a single rebus have plenty of time to do so as all will have until next Saturday night March 14, at 7 o'clock to submit their answers.

Hundreds Have Found Pleasure

In solving the rebuses and so will you. Some may appear difficult at first but a little study, remembering each picture represents a well known Newark firm, will enable you to correctly solve the rebuses.

After This Is Done

All one has to do is to write the firm's name and the contestant's name and age on the blank lines provided, then write not more than 100 words about any single one of the ten firms pictured.

Do Not Write More Than 100 Words.

The contestant must not write more than 100 words about the firm selected for a subject but may make the article less than 100 words if he or she desires. The judges will take age into consideration so that the younger boys and have a chance equal to every other one.

Cash prizes for boys and girls will be awarded in a few days.

It costs nothing to participate in the contest and the rules are simple.

Solve the rebuses, fill in blanks, write 100 or less about any one firm portrayed in the rebuses and if you are less than 16 you may win a cash prize.

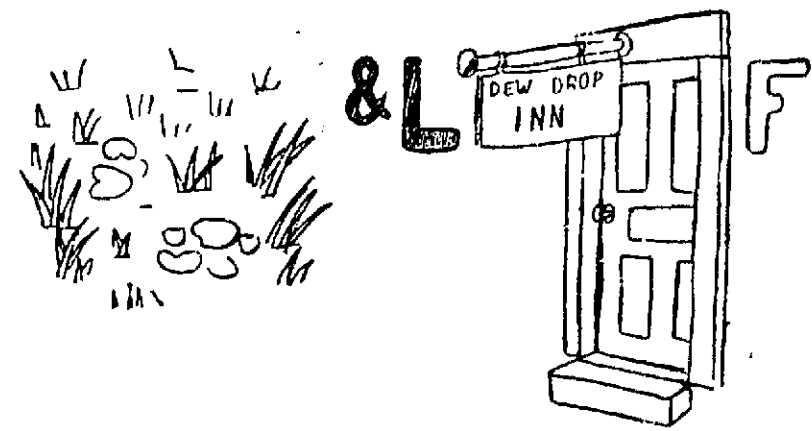

Judges will consider age in making awards and the judges will not know the names of those who write the articles as numbers will be substituted by the Advocate before compositions are judged.

Boys and girls have till 7 o'clock next Saturday night, March 14, 1903, to submit their solutions and 100 word articles. Be sure to put name and age on every picture and on the 100 word article.

No article longer than 100 words will be considered. Write only one "essay" and choose any one of the ten firms as your subject.

First prize \$5, second prize \$3, third prize \$2.

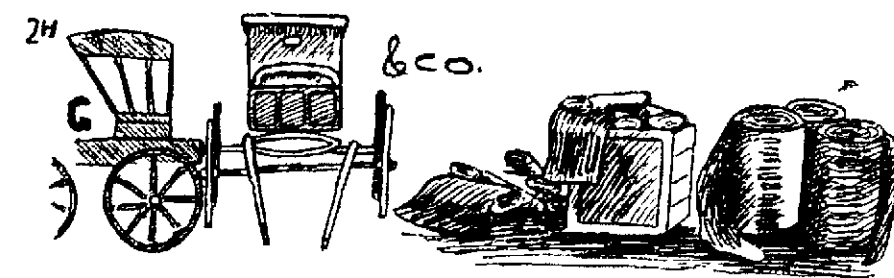

When rebuses are solved and blanks filled in properly send them by mail or otherwise together with the 100 word article about any one of the ten firms to the REBUS EDITOR of the Advocate, Newark, O.

SUNDAY SCHOOLS

County Secretary Shinn Wants Dates for Spring Conventions Fixed.

County Convention May 18.

The time is at hand for the Sunday School spring conventions. Several conventions are already arranged for, but many townships have not sent in their dates as yet. Will the officers please take notice and send in their dates at once so that the county officers may arrange their schedule where desired.

Please fix the dates even if in April or the first of May. Because if the officers get all round they must plan ahead.

Arrangements have been completed for the county convention which is to

be held in Newark May 18 and 19, beginning at 2 o'clock p. m. and holding over two evenings. A rare treat is in store for us all.

With such persons on the program as Dr. C. L. Work and Prof. W. A. Chamberlin of our own county, Dr. Joseph Clark of Columbus, State General Secretary, and Mr. H. A. Dowling assistant secretary Mr. C. E. Knap of Three Oaks, Mich., Mrs. A. G. Crouse, State Primary Secretary, and Mr. W. G. Landes of Chicago, who will have charge of the service, it is not difficult where he will get our treat.

The executive committee is planning for five hundred delegates and the prospects are very fair. This means a large delegation from your locality, but the officers believe that if the people thoroughly understand the treat which is in store there will be no difficulty in getting large delegations.

No Sunday school teacher can afford to miss it, and every officer owes it to himself and to his school to attend.

Begin now to lay your plans. Talk it to your friends, and watch for further announcements as they will appear from time to time in our county papers.

GAVELS FOR JOE CANNON.

One For the Next Speaker Is Made From Historic Piece of Timber.

Joseph Cannon of Illinois is receiving much attention as the speaker of the next house of representatives, writes the Washington correspondent of the Philadelphia Press. Admirers of his in many parts of the country are writing him, and on his desk in the appropriations committee room are two beautiful gavel which have been presented within the last few days. One of these is a handsomely turned mallet of black oak with a handle of ash, which was presented to Mr. Cannon by the workmen in the Puget sound navy yard. The gavel is made from material taken from the United States battleship Oregon when the latter was repaired at that navy yard last year.

Another gavel has been presented by Mrs. Charlotte Smith of Washington and is made from part of an ashwood joist taken from the east room of the White House. The joist was 142 years old and escaped the fire when the British burned the White House in 1814.
